|                                            |   |
|--------------------------------------------|---|
| • Science for Technology                   | B |
| • Information and Communication Technology | B |
| • Engineering Technology                   | C |

## PROJECT

- University Event Management System**
- Designed an engaging UI for event planning and coordination, featuring intuitive navigation, visually striking event highlights, and user-friendly login and signup forms to enhance accessibility.
- Down South Travel Mobile App**
- Created a visually appealing mobile UI that allows users to explore destinations, browse categories, and view detailed location previews. The design emphasizes personalization and ease of use.
- University Parking Management System**
- Developed a professional and modern UI for a parking management system, focusing on user convenience through streamlined booking options, service details, and interactive forms.
- Coffee Shop Mobile App**
- Designed a sleek coffee-ordering app with intuitive navigation, user authentication, product browsing, customizable orders, and a seamless checkout experience, enhanced by a cozy dark theme and warm visuals.
